

COMMUNITY HEALTH

OUR COMMITMENT:

- Protect community health
- Bring new, improved health services to our neighbouring communities.

OUR IMPACT:

- Potential increase in communicable diseases due to in-migration
- Potential increase in road safety hazards due to increase in traffic
- Increase in dust generation during construction
- Personal safety and security impacts due to in-migration.

OUR PLAN:

IMPROVE COMMUNITY HEALTHCARE, WHERE WE HAVE ALREADY:

- Invested 243 million MNT in a programme to prevent and reduce the spread of communicable diseases such as HIV/AIDS, Hepatitis B and other blood-borne illnesses
- Established the first dental clinic in Khanbogd which has served over 80% of the population of Khanbogd

- Provided financial support for the recently completed renovation of the Khanbogd hospital in the *soum* centre
- Invested in a health consultancy centre in Omnogovi *aimag*
- Implemented a doctor support programme to help retain healthcare professionals in the region (in 2012, we provided between 1-1.5 million MNT to 25 doctors; the programme is now in its seventh year and we continue to support it).

SECURITY:

- Increase security measures to reduce the risk of incidents by providing human rights induction training for employees and contractors
- Provide human rights training for security and police personnel
- Involve external stakeholders (e.g. the police) in security incidents
- Use the community complaints, disputes and grievance procedure to monitor issues.

ROAD SAFETY:

- Conduct driver safety training for all operators of Oyu Tolgoi vehicles
- Establish safe driving standards for day and night driving of Oyu Tolgoi vehicles
- Develop and hold public awareness campaigns on road safety
- Implement road safety design features, e.g. add signage and animal crossing areas and underpasses.

CONTINUED STAKEHOLDER ENGAGEMENT:

- Provide timely and accurate information to local communities on significant future planned construction activities
- Liaise with local herders to minimise the risk of livestock loss due to vehicle accidents.

For more examples and details, please see the Community Health, Safety, and Security Management Plan in the Environmental and Social Impact Assessment (ESIA).

The ESIA is available at www.ot.mn and in the following public locations:

- Oyu Tolgoi Offices in Khanbogd, Manlai, Bayan-Ovoo, and Dalanzadgad
- **Khanbogd:** Ceremonial House (Yosloliin Urguu)
- **Manlai:** Information Hall, Governor's Office
- **Bayan-Ovoo:** Secondary School
- **Dalanzadgad:** Central Library and the Citizen's Hall
- **Ulaanbaatar:** Oyu Tolgoi Information Centre.
